- Python programming
- Mastery of XML
- Figma expertise
- Code validation
- Teamwork and collaboration
- Efficient data handling
- Algorithm design and analysis
- Android development
- Web Development

💼 PROFESSIONAL SUMMARY

Thrived in a collaborative, fast-paced environment with a strong focus on user-centered design and cross-functional teamwork. Applied user research and interaction design skills to deliver intuitive, engaging interfaces that solve real user problems. Now seeking to transition into a new field, bringing a solid foundation in design thinking, adaptability, and structured problem solving

Strong at problem analysis, wireframing, and usability driven decision making. Experienced in iterating designs based on feedback and real world constraints. Brings a balanced perspective of creativity and logic, with a focus on building products that are both functional and visually refined.

💼 WORK HISTORY

UI/UX Designer
Sumago Infotech Pvt. Ltd
06/2024 – 07/2025 | Nashik, India
- Developed wireframes and prototypes to effectively communicate design ideas to stakeholders and team members.
- Designed user flows, ensuring seamless transitions between different stages of the user journey.
- Worked closely with marketing teams to align branding elements within the UI/UX design.
- Developed interactive mockups using prototyping tools such as Sketch or Adobe XD for validation purposes before implementation phases began.
